Kristen,

Thanks for sending the background information on the Tower site – that material is helpful. I would be glad to attend the proposed May 26 meeting. Please keep me in the loop about the arrangements.

As you indicate below, I have a meeting at Lac Vieux Desert Band on the afternoon of April 12. If it would be helpful and your schedule permits, I could swing by your office the morning of April 13 to discuss this issue and/or others.

Jenny

Good Morning,

The all parties meeting was pitched as a technical meeting to coordinate future work. What Sherry describes below is putting a show on for the RP to show a unified front where the

RP and their contractor is hauled in BEFORE any coordination discussions takes place. This is suspect of an outcome of the State-EPA meeting. I have some concerns. In the past we have communicated with the RP for both enforcement reasons and to share discovered site conditions through summaries of technical work.

If the intent of this portion of the meeting is to show a unified cooperation of Tribal, EPA, and State efforts; this should take place AFTER we have a unified approach or agreement.

I included Jenny Manville in this email. I spoke with Jenny yesterday about the upcoming meeting. Jenny will be nearby in Watersmeet on Wednesday and Thursday of next week and is willing to meet with us on this project.

Hi everyone!

Could you hold May 26th. It is a date that is good for almost everyone. I still need to confirm that the Kozaks and REI will be available.

This meeting will be a general meeting to try to get everybody up to speed on what has been happening. After some general points about needed coordination, cooperation and schedule, we'll excuse the Kozaks and have the first of what I anticipate will be monthly technical meetings.

Good Morning Bob and Sherry,

LDF is available on the May 26 date that was proposed for the Haskell Lake Area Petroleum Contamination Meeting.
